

DJ Honesty (Cabinet / Scenario / Bass Culture)

DJ Honesty is first of all an ace behind the decks, an extraordinary mentor of dance-floors able to recap a surgical mixing technique with exquisite taste and a wide-open vision of dance music culture. He embodies at the same time the tradition of German house music and the freshness of modern times grooves. It is certainly not a case that he is a high-requested remixer, with a number of notable assignments only in 2018 for labels such as Inner Balance, Scenario and Quality Vibe, to mention a few.
